SITUATION SUMMARY

Cal OES Activation Status

State Operations Center	Inland Region EOC	Coastal Region EOC	Southern Region EOC
Normal Operations	Normal Operations	Normal Operations	Normal Operations

Cal OES EMAC Missions

- **2019-CalOES-1927:** California has provided an A-Team to support Oklahoma's adverse weather conditions. The team consists of one Cal OES A-Team member and one CNG A-Team member. Deployment dates are 05/28/19 - 06/12/19. The team will report to Oklahoma's EOC.

2019 Measles Outbreak

- Next MHCC situation report: 05/31/19 by 1700 hours.

Cal OES INLAND REGION

- Nothing significant to report.

Cal OES COASTAL REGION

- Nothing significant to report.

Cal OES SOUTHERN REGION

Cedar Springs Dam Event, Hesperia, San Bernardino County [\(Final\)](#)

On 05/29/19 at 1744 hours, the California State Warning Center (CSWC) received a report from the California Department of Water Resources (DWR) advising that while performing upgrades and maintenance to the Cedar Springs Dam, an old boring hole was discovered. A wire was protruding from the hole that may be attached to explosives.

- The hole is 20-40 feet from the spillway wall with an estimated hole depth of 4 feet (based on construction records).
- The hole appears to be from the original construction in 1971.
- It is believed that 4-5 sticks of dynamite may still be in the hole.
- San Bernardino County Sheriff's Office is confident the wires and presumed device(s) are construction related.
- DWR will assess the scene for potential impacts. They anticipate proceeding countercharge early next week.
- Prior to countercharge, DWR's Operations & Maintenance office will submit a plan to Division of Safety of Dams (DSOD) to review estimated impacts to the spillway wall and other structures.
- The area has been isolated and 24 hour security is on scene until countercharge is complete

FIRE ACTIVITY

Cal OES Fire Preparedness Levels

National	Northern California	Southern California
Preparedness Level 1	Preparedness Level 1	Preparedness Level 2
	Multi-Agency Coordination System MACS Mode: 2	Multi-Agency Coordination System MACS Mode: 2

Cal OES LAW ENFORCEMENT MISSIONS

Cal OES Law Missions

- **2019-LAW-1957, 05/30/19, 1332 hours:** The International Emergency Response Coordination Center (IERCC) reported a SPOT device activation with no messaging capabilities at coordinates 41.164340, 121.937470, which plotted to the area northeast of Grizzly Peak in the Shasta-Trinity National Forest, Shasta County. The person listed as the emergency contact for the device reported her father is the registered owner and is from Germany. Her 61 year old father and 51 year old mother intended to hike the Pacific Crest Trail for two months. Shasta County Sheriff's Office was notified of the SPOT activation and generated a SAR mission. At 1555 hours, a 911 call was received from the device owner, who stated they had been lost for two days. They requested extraction, but were not injured. A CHP helicopter located the two parties and delivered them to the ground team, who drove them to a hotel in Redding. **Mission Closed**
- **2019-LAW-1934, 05/28/19, 0844 hours:** Tulare County Sheriff's Office requested two Human Remains Detection (HRD) canine teams to assist in a search for a 16 year old missing since 5/12/2019, along a stretch of the Tule River near Springville. Search is tentatively scheduled for 06/03/2019. LEB Canine Coordinator assigned WOOF handlers Kathryn Stewart and Mary Cablk to the mission. **Update 05/30/19:** The Tule River flow rate is still too strong and the mission will be pushed back for approximately one week until the flow rate subsides. Mission date to be decided. This mission will be removed from the daily report until a date is identified. **Mission On-Going**

Cal OES MISSION TASKING

Cal OES Missions

- Nothing significant to report.

Cal OES

GOVERNOR'S OFFICE
OF EMERGENCY SERVICES

Mission:

We protect lives and property, build capabilities, and support our communities for a resilient California.

We achieve our mission by serving the public through effective collaboration in preparing for, protecting against, responding to, recovering from, and mitigating the impacts of all hazards and threats.
